

i-Memory Flash Drive AI920 Jet black –

New in Jet Black

We've added the Jet Black version to showcase the ever-relevant need for great connectivity, achieving a striking glossy look through advanced finishing that also resists routine scuffing, scratching, and that occur in daily life. And also upgraded several practical functions in i-Memory app.

iOS device to TV via Chromecast

In addition to Airplay mirroring on Apple TV, the i-Memory app supports iOS mobile device content display on TV using Chromecast. With a few taps, enjoy content from iPhone or iPad on big screen TVs.

Lossless, high fidelity audio enjoyment

The AI920 integrated advanced lossless codec processing so that we can experience compressed files on electronic devices. It also becomes optimized for Apple AirPods, delivering lossless music quality.
