

DURABLE MASTER DEFEAT IMPOSSIBLE

HD725 External Hard Drive

HD725 External Hard Drive

The HD725 takes external hard drive durability further than any other drive. We test it to beyond IP68 dust and waterproof standards, it exceeds military-grade shock proofing with a triple-layered protective construction. With capacities up to 2TB.

Beyond IP68 to Withstand the Unexpected

ADATA external storage expertise results in a drive with completely dust-tight protection. The HD725 has been tested for 120 minutes under 2 meters of water - that is longer and deeper than the IEC IPX8 requirements!

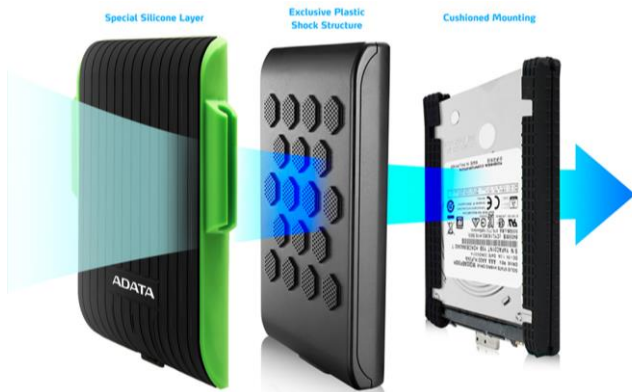

Like a True Warrior with Military -Grade Protection

The HD725 holds up a total of 26 points over its surface, including the faces, edges, and corners. We have tested it to US Army MIL-STD-810G 516.6 standards, meaning it can easily withstand falls from up to 1.8 meters.

Guarded by Durable Triple-Layered Construction

The HD725 has three primary layers: the tough silicone, a shock absorbing buffer, and the tough plastic shell that is closest to the drive itself and holds it firmly in place.

Shock Sensing Technology

The HD725 features shock sensors that immediately stop all drive activity if a shock is detected. Once vibrations fully end, drive activity resumes. There is even an LED light on the drive to let you know the status of the drive.

Features

- Military-grade plus for drops from 1.8m
- Beyond IPX8 (2m for 120 minutes in water)
- IP6X total dust-tight protection
- Durable triple-layered construction
- Shock vibration sensing technology

Specifications

- Interface: USB 3.1
- Capacity: 1TB/2TB
- Color: Yellow/Red/Black/Blue/Green
- Dimensions (L x W x H):
134 x 101 x 21mm
/5.2 x 3.9 x 0.8inch
- Weight: 223g /7.9oz
- Warranty: 3 years
