Lightning Card Reader  
Two-Way Transfer

Made for  
iPod iPhone iPad

## ADATA Apple Lightning Card Reader

Our Lightning Card Reader is specially-designed for iOS devices and features official Apple MFi certification as a fully licensed product. It offers total compatibility with iOS for seamless interconnectivity and wide media format support, including professional RAW image files. It puts as much as 256GB capacity at your service and is the first Lightning-based SD and microSD card reader with read and write capabilities, bringing these super-popular storage expansion formats to iOS devices for fast and smooth content movement between your favorite platforms: smartphones, tablets, digital cameras, and more.

### Two-Way Data Express: First with Read and Write!

We're happy to deliver the first Lightning card reader that works bi-directionally with fast read and write, connecting to iOS devices easily whether online or offline. Think of it as a high speed content expressway that leads to vastly more convenient access to all your content in the highest fidelity, wherever you may be.

### Two Slots, Double Support

Plug SD and microSD cards into one compact accessory, connecting you to smartphones, tablets, digital cameras, and other content sources and destinations. The inclusion of SD and microSD means you can quickly increase the storage capacity of your iOS devices by up to an additional 256GB for keeping more data and content safe and handy, from business presentations to travel mementos, so you're always in touch.
