

USB-C / Micro USB 3.2 Cable

ONE FOR ALL

USB-C/Micro USB 3.2 Cable

With interchangeable USB-C and Micro USB 3.2 connectors, this 2-in-1 cable can sync and charge nearly all of your Android devices. It can output up to 3A current for fast charging, and is built with the finest materials, ensuring it can withstand bending, twisting, and pulling.

Two Connector Types = Convenience

Simplify your life with a cable that has both Micro USB and USB-C 3.2 connectors. No more fumbling around with two cables on the go to charge and sync multiple Android devices.

Next Level Performance

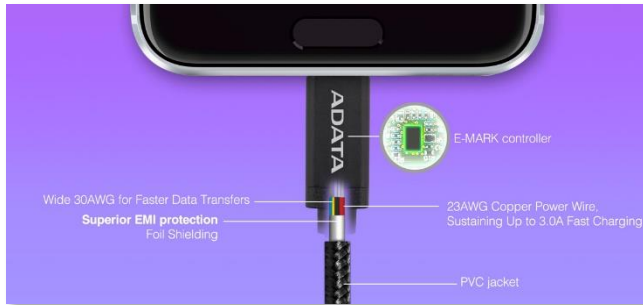

Transferring large files between devices will be a lot more bearable because everything will move at up to 5Gbp/s.

A Durable & Effective Performer

A beautifully textured braided-nylon sleeve protects the cable from deformation and tangling. Combined with its multi-layered construction and wide 23AWG tinned copper wires with antioxidative properties.

Ordering Information

Model	Model Number	EAN Code
