SE730H EXTERNAL SOLID STATE DRIVE

EVOLUTION ACCELERATED

SE730H External Solid State Drive

The world's most compact external SSD is back - this time in 3D! Revised and improved, the SE730H packs high performance and durable 3D NAND. It connects via USB 3.1 Gen 2 (10Gbps) with a reversible Type-C connector and delivers 500MB/s read/write. Add to this IP68 dust and water proofing, military-spec shock proofing, and an eye-catching stylish design and you get must-have storage.

Leave the past behind

The SE730H's 500MB/s read and write speeds combine with USB 3.1 Gen 2 10Gbps delivery to usher a new era of fast. The SE730H can transfer a 5GB full HD movie in 16 seconds!

Reversible USB-C: it's always the right way

Thankfully the SE730H uses a USB-C (Type C) connector, which is reversible. There's no annoying up or down like with traditional USB.

IP68 dust and water proof plus military-grade shock proof

The SE730H passes strict IEC IP68 standards. That means complete dust resistance and normal operation even after an hour in 1.5m of water. The SE730H also meets MIL-STD-810G 516.6 impact resistance so it can survive accidental drops and shocks with ease.

3D NAND Flash boosts durability and performance

The new technology is more durable and power efficient than 2D NAND, with the 3D TLC NAND in the SE730H having a 25% longer lifespan compared to previous generation SE730 drives.

Features

- High R/W speed up to 500MB/s
- Tough IP68 dust/water proof
- Military-grade shockproof
- 3D NAND TLC, greater longevity, reliability, and durability
- Supports Android, Mac OS, Windows
- Portable-slim design
- Lighter, quieter, more shock resistant and more durable than external HDDs

Specifications

- Interface: USB 3.1 Gen 2 Type-C
- Capacity: 256/512GB
- Color: Gold/Titanium
- Dimensions (L x W x H):
  72.7 x 44 x 12.2mm / 2.8 x 1.7 x 0.4"
- Weight: 33g / 1.1oz
- Warranty: 3 years
