The SX950 is the first 2.5" SSD from XPG which implements 3D NAND Flash for higher density, optimized performance, and high durability, fully meeting gamer expectations for speed and stability during the most intense action. With up to 1.92TB, users can store bigger games and more titles. With support for intelligent SLC caching and DRAM cache buffer, maximum read/write speeds on the SX950 reach 560/530MB per second. This makes instant boot and faster loading times a reality for gamers. In addition, the SX950 features LDPC ECC and RAID Engine technology, which strengthen data protection and integrity.

**Features**
- 3D MLC NAND Flash for higher capacity and durability
- 6-year warranty
- Read/Write speed up to 560/530MB/s
- SMI Controller
- Intelligent SLC caching and DRAM cache buffer
- LDPC ECC and RAID Engine
- High TBW up to 1600TB for excellent longevity
- Bundled with a 2.5mm spacer and 3.5" bracket - Suitable for ultrabooks, gaming notebooks and high-end desktops

Specifications

- Capacities: 240GB / 480GB / 960GB / 1.92TB
- Controller: SMI
- NAND Flash: 3D MLC
- Interface: SATA 6Gb/s
- Form Factor: 2.5”
- MTBF: 2,000,000 hours
- Dimensions (L x W x T): 100.45 x 69.85 x 7mm
- Weight: 58g
- Power Consumption: 0.82W Active (Typical), 0.41W Slumber (Typical) (*measured by power meter)
- Operating Temperature: 0°C~70°C
- Storage Temperature: -40°C~85°C
- Shock Resistance: 1500G/0.5ms
- LDPC ECC Engine
- Certifications: RoHS, CE, FCC, BSMI, VCCI
- Warranty: 6 years
