

INFAREX M10 Gaming Mouse &
INFAREX R10 Gaming Mousepad

LIGHTING UP THE PERFECTION FOR THE BATTLE FIELD

INFAREX M10+R10 Gaming Mouse & Mousepad

The best warriors in the world need the best weapons in their hands. The INFAREX M10 gaming mouse and the INFAREX R10 gaming mousepad are equipped with dazzling RGB lights to brighten up the gaming experience. Simply tap the surface of the INFAREX R10 to switch between nine different lighting modes, thus creating different atmospheres for different games. The INFAREX M10 mouse, with its 3200 DPI optic sensitivity and Ultrapolling tracking system, allows gamers to precisely lock on to their targets and eliminate them.

RGB Lighting Effects

The INFAREX R10 comes with three different lighting modes: mono-colored lights, cycling lights, and pulsing lights. Gamers can configure their gaming experience according to their preferences.

Durable & Scratch-Resistant

The INFAREX R10 is made of tough, scratch-resistant PVC, allowing it to be used on a variety of surfaces. The mousepad itself has the perfect amount of friction.

Perfect Precision for the Perfect Shot

The INFAREX M10 mouse has a top optical sensitivity of 3200 DPI. It also comes with a DPI adjustment button, allowing the user to change sensitivity settings.
