

XPG PRECOG ANALOG Gaming Headset

# ACOUSTIC WARFARE

## XPG PRECOG ANALOG Gaming Headset

Sporting hybrid electrostatic-dynamic drivers and ergonomic ear cups covered in a skin-friendly fabric, the Hi-Res Audio-certified XPG PRECOG ANALOG is a gaming headset designed for epic sound quality and long-session comfort. What's more, it comes equipped with a detachable high-sensitivity microphone, which is among the best in the industry, and can be customized with a range of accessories.

XPG PRECOG ANALOG targets those customers that require a pure sound and are more cost conscious.

It comprises of the same XPG PRECOG headset that we all came to love in a simpler package that only carries 3.5mm jack connectivity, and that comes de-featured of all the sound processing USB capability.

The original fully accessorized XPG PRECOG model can be also found at: <https://www.xpg.com/en/feature/620/>

### HYBRID ELECTROSTATIC-DYNAMIC

The XPG PRECOG ANALOG's hybrid electrostatic-dynamic drivers are designed to cover both clear and distortion-free high frequencies while providing an extra kick on low bass for more immersive gameplay compared to standard electrostatic-only products.

### HI-RES AUDIO CERTIFIED

The Hi-Res Audio certified XPG PRECOG ANALOG features a phenomenal frequency response of 5Hz - 50,000Hz. You can access and fully enjoy superior sound quality content like FLAC/ALAC, AIFF, or MQA formats over usual compressed audio formats without "skipping a bit".

### ERGONOMIC EAR CUSHIONS

The ear cups are designed for maximum comfort. They sport a slanted beveled design to provide a more natural fit. This enhances sound insulation, won't decompress the head, and provides comfort even when glasses are worn. A breathable and soft fabric also adds to your level of comfort.

### MADE FOR LONG-SESSION COMFORT

The XPG PRECOG ANALOG's hybrid electrostatic-dynamic drivers are designed to cover both clear and distortion-free high frequencies while providing an extra kick on low bass for more immersive gameplay compared to standard electrostatic-only products.

### DETACHABLE HIGH-SENSITIVITY MICROPHONE

The ear cups are designed for maximum comfort. They sport a slanted beveled design to provide a more natural fit.

This enhances sound insulation, won't decompress the head, and provides comfort even when glasses are worn. A breathable and soft fabric also adds to your level of comfort.
