

## HD710M External Hard Drive

The HD710M speaks of rugged adventures with a camo design that echoes its durable construction. Protected by a hardened silicone shell and loaded with space for your expeditions, the USB 3.0-driven HD710M deploys military-grade water, shock, and dust proofing. Ready up and get going.

### THE CAPACITY FOR ADVENTURE

For those who love being active and crave the outdoors, it's all about space. Space to experience, space to make new memories – and space to store it all for safekeeping. The camo-styled HD710M brings its toughness to go with up to 2TB capacity, giving you the room you need, whether on an extreme journey or at home.

### BOOT-CAMP TESTED: IP68 DUST AND WATER PROOF

The HD710M is ready for any environment. It meets the strictest IEC dust-tight requirements at IP6X, meaning complete protection against ingress of dust. For more aquatic operations, we've made the HD710 IPX8 waterproof: put it in 1.5m of water for an hour and it'll keep working like nothing happened! From windy deserts to raging seas, this is the guardian of your data.

## TOUGH BUT CONSIDERATE

To achieve military-grade shockproofing, our engineers employ triple-layer construction and tough silicone that can withstand even extreme drops, shocks, and knocks. We test the HD710M to US Army MIL-STD-810G 516.6 specifications and beyond to ensure it protects your content with an impact-resistant design. Scale the tallest mountains with confidence.

The HD710M may be all about ruggedness, but it certainly keeps comfort in mind. The included USB cable gets you connected at USB 3.0 speeds plus fits snugly into a wraparound groove for easy wire management and hassle-free mess removal. That's being ready for inspection!

## Features

- Military-grade shockproofing matched by woodland camo design
- Waterproof (IPX8 standard: Submerged to 1.5 meters for 60 minutes)
- Dustproof (IP6X standard: Totally protected against dust)
- Military-grade Shockproof (1.8m drop test than the standard of MIL-STD-810G 516.6)
- High-end silicone case with carbon fiber-like pattern

## Specifications

- Interface: USB3.0, backward compatible with USB 2.0
- Color: Camouflage
- Capacity: 1TB / 2TB
- Dimensions (L x W x H):  
132.0 x 99.0 x 22.0 mm (5.2 x 3.9 x 0.8 inch)
- Weight: 220g (7.8oz)
- Warranty: 3 years
