Back

TURN ON/ OFF

1.

Plug in the USB cable to power

2.

If the light strips do not turn on, press the control button once.

3.

Hold the control button for 3 seconds to turn off the light strips

RGB LIGHTING EFFECT

There are two light strips on the mouse pad.
Please select the light strip you would like to control as per the sequence below:

Step 1

Double click the control button to select the light strip.

**Step 2**

The selected lighting strip will flash. You can also select both light strips, in which case both will flash.

**Step 3**

Each click of the control button will change the lighting color/effect following this sequence:
Lighting effect: White / Blue / Indigo / Green / Yellow / Red / Purple / Cycle Breathing
